

300 (PSD+HTML) Templates

[" The Answer To Your Prayers "]

Layout Bank introduces 300 PSD/HTML Templates

Layout Bank is committed to simplifying the web design process for you! The PSD design templates distributed by Layout Bank are created by some of the top web designers in the world. Now, they are available with the HTML code in place further minimizing your effort in the creation of stunning web designs!

The templates come in their source code—PSD/HTML format and are easily customized using Photo Shop and an HTML editor. Whether you are a profession web designer, or a "do-it-yourself" web builder, the HTML templates from Layout Bank can save you time and money!

When inquiring about web templates, many customers ask, "If I use a website template, won't someone else have a design just like mine?" The answer to that question is "no". The Layout Bank templates are fully customizable. You can change the colors, graphics and text making the design your own. What the template does is eliminate the time-consuming tasks of web design by providing a preconfigured layout and HTML code.

If you are an individual and you just need one site design, you can purchase the designs separately for only (insert price). If you are a professional designer, it would be wise for you to purchase the entire package of 300 designs for only \$299.

Using the Layout Bank HTML templates saves you time and money!
